MAINTENANCE/SAFETY TRAINING SYLLABUS

Each customer's Maintenance/Safety training program consists of selections from the list below. It is tailored to each customer's specific operation and is kept updated. It takes the average student 15-20 minutes to complete each lesson. All exams are randomly selected from a bank of up to 200 questions. Lesson completion and exam results are automatically recorded. Lessons are corrected to 100% and exam errors are reviewed.
